

High Precision Black Bearing Steel Sand, Customized Size Bearing Steel Grit

Specifications :

Price	Contact Us
Place of Origin	Shandong, China
Payment Terms	T/T, L/C, Western Union, etc.
Delivery Detail	10-25 working days.
Keyword	Angular Bearing Steel Grit

Detail Introduction :

Bearing Steel Grit

Bearing Steel Grit, it's much different with cast steel grit, it's cracked from Ball Bearing scraps with heat treatments. This kind of steel grit has no cambered surface, efficiency higher than common cast steel grit for stone cutting. And also this bearing steel grit contain Chrome 0.6-1.6%, much more wear resisting during stone cutting!

Product		STEEL GRIT GH/GL/GP10-120		
Chemical Composition %	C	0.80-1.20		
	Mn	0.20-1.20		
	Si	0.15-1.20		
	S	?0.05		
	Cr	0.60-1.60		
	P	?0.05		
Hardness (HRC)		60-66(GH)	50-60(GL)	40-50(GP)
Density (g/cm3)		7.4		
Metallographic Structure		Fine and Homogeneous Tempered Troosite		
C Level		<2
