garnet blasting material

Specifications :

Price	Contact Us
Place of Origin	Shandong, China
Payment Terms	T/T, L/C, Western Union, etc.
Delivery Detail	10-25 Working Days.
Keyword	Garnet Sandblasting

Detail Introduction :

Application:

Our garnet sand has features of sub-conchoidal fracture, high hardness, good toughness and sharp edges, it can form new angular and edges constantly during crushing and classifying, so our garnet sand has high speed and fluency in waterjet cutting.

Garnet Sand ---- Physical Characteristics

Item	Hardness (mohs)	Specific Gravity (g/cm3)	Average Bulk (g/cm3)	Conductivity (/m)	Soluble Salts (ppm)	Chloride Content (ppm)	PH of Aqueous Medium
Result	8.0	4.1	2.4	Less than 25	Less than 100	Less than 25	6.93

Packaging

25 kgs/bags 40 bags / big bag or pallet
1000 kgs / big bag
