Place of Origin	Shandong, China
Payment Terms	T/T, L/C, Western Union, etc.
Delivery Detail	10-25 Working Days.
Keyword	Garnet Sandblasting

Detail Introduction :

Garnet Sand Introduction

It goes through crushing, magnetic separation, washing, drying and screening production procedures. Being crushed from natural garnet rocks, our garnet sand has high hardness and sharper edges. With many times magnetic separations to remove impurities, it keeps high qualified red grains.

Then several times washing removes the powder away. After screening of sifting bed, each size has the uniform particle distribution.

Our Size

8/12 12/20 20/40 30/60 80# 100# 120#

8# 12# 16# 24# 30# 36# 46# 60# 80# 100# 120# 150#

Chemical composition

Al ₂ O ₃	16-21%
Fe ₂ O ₃	27-32%
SiO ₂	35-38%
MgO	4.5-6%
CaO	2-9.5%
TiO ₂	1-3%

Packaging

25 kgs/bags 40 bags / big bag or pallet

1000 kgs / big bag
