Place of Origin	Shandong, China
Payment Terms	T/T, L/C, Western Union, etc.
Delivery Detail	10-25 Working Days.

Detail Introduction :

Medium glass bead blasting abrasive

Glass beads with the quality of clean, transparent, no bubbles and impurity. Its hardness and spherical form is suitable to remove impurity and metal oxides with no damaging of the treated surface. It also does not react chemically with other materials so that it widely used in blasting, polishing, grinding, Kaolin delaminating, etc.

Specification

Name	glass bead
Application 1	Used for semi-luster surface treatment of stainless steel products
Application 2	For cleaning of mould such as forging dies, rubber, plastic, metal casting, extrusion & stamping dies etc.
Application 3	To clear tensile stress of various parts, increase the fatigue life and corrosive power
Application 4	For cleaning and removing the flash, burr of integrate circuit and semiconductor device c.
Application 5	For shot peening of medical equipment, textile machinery and all kinds of hardware products etc.
Application 6	For cleaning and removing burr of all kinds of metal tube, non-ferrous alloy precision casting etc

Supply Size

BLASTING GLASS BEADS TYPE	SIZE(?m)
20-30	850-600
20-40	850-425
40-60	425-250
50-70	300-200
60-100	250-150
80-140	180-100
100-140	150-100
100-200	150-70
140-200	100-70
140-270	100-50
200-325	70-45
0-325	0-44

Our Company:

It is a professional production and processing of shot blasting machine, shot blasting machine accessories and other products of the company, has a complete and scientific quality management system.
