

G10 steel grit

Specifications :

Price	Contact Us
Model Number	G10
Place of Origin	Shandong, China
Payment Terms	T/T, L/C, Western Union, etc.
Delivery Detail	10-25 Working Days.
Keyword	Steel Grit Abrasive

Detail Introduction :

Steel Grit - High carbon steel grit

G10/G12/G14/G16/G18/G25/G40/G50/G80/G120

GH GL GP grade

Steel grits are angular in shape and are produced by crushing oversize steel shots and subsequently heat treated by tempering to get the required hardness and microstructure.

These intrinsic characteristics of the product enormously enhance the performance of the blasting for heavy descaling, deep descaling and surface preparations.

The angular shape and relative hardness of steel grit ensures rapid cleaning rates and excellent recyclability. With variations in hardness and size, steel grit can also be used for cutting granite and stones.

Technical parameter :

Products		Cast steel grit
Shape		
chemical composition	C	0.8%-1.2%
	Mn	0.35%-1.2%
	Si	?0.4
	S	?0.05%
	P	?0.05%
hardness		42-52HRC
hardness deviation		Max deviation ± 3.0 HRC
Tensile intensity		
Durability		2000-2800times
Microstructure		Tempered Martensite or sorbite
Density		7.4g/cm ³
Bulk density		4.4g/cm ³

FAQ:

Q: Are you a factory?

A: Yes, we are a factory/manufacturer. We established the steel abrasives factory since 2007.

Q: What is your products range?

A: Our main products are High Carbon Steel Shot, High Carbon Steel Grit, Carbon Steel Cut Wire Shot, Stainless Steel Cut Wire Shot. After years of development, we expanded our products range, Bearing Steel Grit for marble & Granite cutting, Cast Stainless Steel Shot, Zinc Cut Wire Shot, Aluminium Cut Wire Shot, Copper Cut Wire Shot, Garnet Sand, Fused Alumina, Sandblasting Gloves etc. also available!

Q: What's the production capacity of your steel abrasives?

A: The annul output of steel abrasives is more than 30,000 MT.

Q: What's the MOQ for the steel abrasives?

A: Usually 2 MT is the MOQ for steel abrasives.

Q: What's the payment terms?

A: T/T (Bank Transfer) or LC at sight both ok!

Q: What's the package method?

A: a) 25 kgs/bag, 40 bags/big bags;
b) 1000kgs/big bag;
c) 25kgs/bag, 40 bags/pallet;
d) 25kgs/bag, 40 bags/carton box with pallets,
any other requirements pls feel free to contact us.

Q: Can we get your free samples?

A: Yes, usually we offer free samples within 500 grams. If you have any other requirements, pls feel free to let us know.

Q: Can we visit your factory?

A: Yes, we welcome our friends and partners from all over the world! Our factory locate in Zibo City, Shandong Province, China. You can come to Jinan Yaoqiang airport or Zibo railway station. We will arrange car to pick you up to our factory.
