

G14 steel grit sand blasting steel grit

Specifications :

Price	Contact Us
Model Number	G14
Place of Origin	Shandong, China
Payment Terms	T/T, L/C, Western Union, etc.
Delivery Detail	10-25 Working Days.
Keyword	Steel Grit Abrasive

Detail Introduction :

Steel grit for sand blasting

Steel Grit is an angular metallic abrasive produced by crushing bearing steel . Steel Grit is used for descaling, coating and corrosion removal, and surface etching. The angular particle shape provides a fast cleaning rate and an angular surface profile.

Steel Grit is tempered to three different hardnesses. The hardest material GH, is designed for use exclusively in air blasting equipment. The two softer materials, GL and GP, may also be used in centrifugal wheel blast equipment.

Main Chemistry of steel grit G40 G25 G80:

Name		steel grit G40 G25 G80
Chemistry	(C)	0.70~1.20%
	(Mn)	0.35~1.20%
	(Si)	0.40~1.20%
	(S)	?0.05%
	(P)	?0.05%
Average Hardness		GP:42~52HRC GL:56~60HRC GH:63~66HRC
Deviation		±3.0HRC(±40HV)
Steel grit Durability		2000-2800times
Minumum Density		7.4g/cm ³

Our Company:

It is a professional production and processing of shot blasting machine, shot blasting machine accessories and other products of the company, has a complete and scientific quality management system.

FAQ:

Q: Are you a factory?

A: Yes, we are a factory/manufacturer. We established the steel abrasives factory since 2007.

Q: What is your products range?

A: Our main products are High Carbon Steel Shot, High Carbon Steel Grit, Carbon Steel Cut Wire Shot, Stainless Steel Cut Wire Shot. After years of development, we expanded our products range, Bearing Steel Grit for marble & Granite cutting, Cast Stainless Steel Shot, Zinc Cut Wire Shot, Aluminium Cut Wire Shot, Copper Cut Wire Shot, Garnet Sand, Fused Alumina, Sandblasting Gloves etc. also available!

Q: What's the production capacity of your steel abrasives?

A: The annual output of steel abrasives is more than 30,000 MT.

Q: What's the MOQ for the steel abrasives?

A: Usually 2 MT is the MOQ for steel abrasives.

Q: What's the payment terms?

A: T/T (Bank Transfer) or LC at sight both ok!

Q: What's the package method?

A: a) 25 kgs/bag, 40 bags/big bags;
b) 1000kgs/big bag;
c) 25kgs/bag, 40 bags/pallet;
d) 25kgs/bag, 40 bags/carton box with pallets,
any other requirements pls feel free to contact us.

Q: Can we get your free samples?

A: Yes, usually we offer free samples within 500 grams. If you have any other requirements, pls feel free to let us know.

Q: Can we visit your factory?

A: Yes, we welcome our friends and partners from all over the world! Our factory locate in Zibo City, Shandong Province, China. You can come to Jinan Yaoqiang airport or Zibo railway station. We will arrange car to pick you up to our factory.
