

steel grit g18 steel grit abrasive blasting

Specifications :

Price	Contact Us
Model Number	g18
Place of Origin	Shandong, China
Payment Terms	T/T, L/C, Western Union, etc.
Delivery Detail	10-25 Working Days.
Keyword	Steel Grit Abrasive

Detail Introduction :

Usage/Application

Sand-removing and rust-cleaning of alloy casting, steel plates, steel pipes, steel structures, containers, ship; reparation of steel substrates before application of paints and related products, surface treatment before plating, cutting rocks, gridding processing, enhancing adhesiveness, intensify of springs, especially used in shot blasting machine and penning machine. Used for industrial foundry, forging plant, heat treatment shop, steel construction plant, container manufacture, ship builder, auto and locomotive manufacture.

Specification

Product Features	High temperature resistance, wear resistance, Mohs hardness of 9.6
material	black silicon carbide
size	F8 - F1200
application	grinding wheel and, abrasive stone for working on plastic, stone, ceramic, glass and nonferrous.
sample	free
OEM	accept
capacity	50000 tons per year
color	black

Our Services

1. **Free samples:** we can supply 200gs samples for free.
2. **Direct manufacturer** to produce .
3. **High quality** : our copper slag have passed ISO quality.
4. **After sales service:** we can supply technical service for free when you using our products.
