

TOP 10 Bearing Steel Grit Manufacturers

Detail Introduction :

Bearing Steel Grit is a type of steel grit that is used to improve the performance of bearings.

Bearing steel grit is a type of steel grit that is used to improve the performance of bearings. It is usually added to lubricants and machining fluids to help reduce friction and wear in the bearings. Bearing steel grit can be used in conjunction with other metalworking processes, such as welding and brazing, to improve the overall quality of the final product.

Bearing steel grit is an essential component of bearings and other moving parts, and as such, it's important to find a good bearing steel grit manufacturer. In this article, we'll take a look at some of the best bearing steel grit manufacturers on the market today.

- 1.BELONG BLASTING TECHNOLOGY CO.
- 2.Specially Recommended ZIBO YALONG ABRASIVE Co., Ltd
- 3.HONEST HORSE CHINA HOLDING LIMITED
- 4.Jinxing Steel Shot Co., Ltd.
- 5.Zibo Taa Metal Technology Co., Ltd.
- 6.Homebase Metal Products Co., Ltd,
- 7.SHANDONG LONGTAI INDUSTRIAL LTD
- 8.Jinan Junda Industrial Technology Co., Ltd.
- 9.Duoleng New Material Co., Ltd
- 10.JX Abrasive Steel Shot Grit Co., Ltd.

1.BELONG BLASTING TECHNOLOGY CO.

Founded in 2002, BELONG BLASTING TECHNOLOGY CO., LTD is now a professional steel abrasive manufacturer in China. We normally produce steel shot/grit products according to international standards, and we can also produce customized abrasives catering for customers' various requests, benefiting from our advanced production facility, technology and quality control system.

Main Products

Currently our products (steel shot & bearing steel grit) are widely used for the shot blasting, surface treatment and shot peening process in fields like offshore engineering, automotive, shipbuilding, steel structure, containers, steel piping, etc.

Website: www.belong-abrasive.com

Core Advantages

BE LONG BLASTING TECHNOLOGY CO. products have being sold to over 35 countries and districts. Our scientific research and development team will help customers to achieve the demanding surface treatment effect, improve the blasting efficiency and reduce cost. In addition, we can also provide all around technical solutions for customers.

2.Specially Recommended ZIBO YALONG ABRASIVE Co., Ltd

ZIBO YALONG ABRASIVE Co., Ltd located in Zibo City, Shandong Province, established in 2007. It is a professional and leading manufacturer and exporter of metallic abrasives. The main products include Shot, Steel Grit, Steel Cut Wire Shot, Stainless Steel Cut Wire Shot etc. The annual output of metallic abrasives more than 30, 000 tons.

Website:www.y-abrasives.com

Main Products

Steel Shot

Steel Grit

Bearing Steel Grit

Copper Cut Wire Shot

Steel Cut Wire Shot

Zinc Cut Wire Shot

Core Advantages

ZIBO YALONG ABRASIVE Co., Ltd has advanced equipment and technology and perfect quality control methods. By using the Centrifugal Atomizing, Double Quenching, and Low-temperature Tempering, the metallic abrasive products are strictly produced and tested according to relative standards, such as S and GB/T18838.3-2015.

With good quality, competitive price, thoughtful service, our metallic abrasive products are widely used in fields like automobile, shipbuilding, steel structure and metallurgy, and have been exported to more than 30 countries and regions, including North America, Europe, Middle-East, South-East Asia, etc.

3.HONEST HORSE CHINA HOLDING LIMITED

HONEST HORSE CHINA HOLDING LIMITED was established in 2005. We are the professional manufacturer and exporter for glass shot, steel shot, steel grit, bearing steel grit, glass beads and other abrasives .

Website:www.honest-horse.com

Main Products

About glass beads, we can produce different road marking glass beads, sandblasting glass beads, and grinding glass beads based on different requirements of customers and according to the standard of different countries and regions. Such as European standard: EN1423 and EN1424; American Standard: AASHTO M247 type 1 and type 2; British Standard: BS6088 Class A and B; Japanese standard: JIS R3301; Korea Standard: KSL 2521 No1 and 2 and so on .

Core Advantages

HONEST HORSE CHINA HOLDING LIMITED philosophy is to build growth on a foundation of high quality, provide excellent service to our customer. We produce strictly according the ISO quality standard, with depth application knowledge. Highly efficient logistics are central to the company's culture, and HONEST HORSE CHINA control of materials strictly from source to use, that ensure quality and consistency. Our products sell to USA, Germany, Japan and so on more than 90 countries.

4.Jinxing Steel Shot Co., Ltd.

Jinxing Steel Shot Co., Ltd. (JX Abrasives), with 20 years development, is a professional manufacturer of abrasives and shot blasting machines. Our production lines cover Steel Shot, Steel Grit, Cut Wire Shot (Aluminum, Copper Shot), Special Steel Grit, Hook Shot Blasting Machine, Tumble Shot Blasting Machine, Conveyor Blasting Machine, Blasting Room and so on in a variety of materials, configurations, and sizes. It is widely used for surface finishing in aerospace, automotive, shipyard, railway, forge and foundry, pipe structure, aluminum and other industries.

Main Products

Bearing steel grit manufacturers offer a wide range of products that are essential for metalworking and industrial processes. Their products are available at various prices and in various sizes to meet the needs of all customers.

Website: www.jxabrasives.com

Core Advantages

JX Abrasives, as china leading surface preparation company, offers a complete range of metal abrasives and shot blasting machine. Our team has a clear focus: To reduce shot blast production costs, simplified logistics, providing economical equipment, excellent technical advice and the longer lasting abrasives.

5.Zibo Taa Metal Technology Co., Ltd.

Zibo TAA is a public listed company integrating technical research, manufacture as well as international business together. With more than 30 years' development, Zibo TAA Metal Technology Co., Ltd. now is the leading manufacturer and exporter of metal abrasives in China.

Main Products

(a) Steel Shots / Steel Grits (b) Low Carbon Steel Shot (c) Steel Cut Wire (d) Stainless Steel Cut Wire (e) Steel Grit (f) Sponge Abrasive Media (j) Aluminum Shots/ Zinc Shots / Copper Shots (h) Shot Blasting Machine Spare Parts (i) Grinding wheels Our products are widely used in fields like automobile, shipbuilding, steel structure and metallurgy.

Website: zibotaa.en.alibaba.com

Core Advantages

TAA metal abrasives have been exported to more than 50 countries and regions, including USA, North America, Europe, Australia, Indonesia, Japan and South Korea etc.

6.Homebase Metal Products Co., Ltd,

Homebase Metal Products Co., Ltd, a subsidiary company of Homebase Group, is a professional manufacturer of steel grit and saw blades. These two products are the key materials for granite gang saw cutting.

Website: www.homebase-metal.com

Core Advantages

For our saw blades, we have abundant material supply of steel rails from local market. Then by combining 20-year saw blade production experience and modern technology, we have constructed a fully automatic production line. The saw blades have been satisfactorily accepted and continuously used by granite fabricators at home and abroad.

The steel grit is made from bearing steel material, which is physically strong and sharp to cut granite. Such bearing steel grit is proved to be the best steel grit for granite cutting. Finally, the combination of blades from steel rails and steel grit from bearing steel material is the best for granite gang saw cutting, smooth, fast and of low consumption.

7.SHANDONG LONGTAI INDUSTRIAL LTD

Shandong Longtai Industrial Ltd, located in Shandong province of China. Longtai Industrial is a comprehensive enterprise integrating chemical research, production, sales and after-sales service.

Website: www.l-tai.com

Company Advantage

Lifetime and high quality service

Advanced production equipment

High quality, High output, Fast delivery

For packaging, you SAY, we DO!

8.Jinan Junda Industrial Technology Co., Ltd.

Jinan Junda Industrial Technology Co., Ltd. has provided sandblasting abrasives and sand blasting equipment, spray paint & coating equipment for Sand Blasting, Surface Preparation and Corrosion Control in many different industries since the 2000's including Oil & Gas, Mining, Structural Steel Fabrication, Water Infrastructure, Marine and Bridge Refurbishment work throughout all over the world with our main factory in Jinan city, Shandong province, China.

Website: www.blastany.com

Main Products

High Quality Abrasives and Grit for sandblasting are essential for surface preparation. Junda have the garnet sand rock and river mine, producing steel shot, steel grit according to SAE standard. And can provide

glass beads according to the requirements of different countries. We are able to provide bulk shipment sandblasting other abrasive media all over the world. If you are unsure of which sandblasting sand, media or abrasive is best for your application, contact us and a customer service representative will assist you.

Core Advantages

16 Years Serving the Blasting & Coating Industry, JUNDA have a strong R & D ability of professional technical team, get the ISO, CE, FDA and many other certificate, We not only sell superior abrasives and equipment, 16 years we have experienced warranty and after sale service team to solve customers problems at the shortest time, We also have the experienced sales team, competitive prices to make our customers spread more to 90 countries and regions all over the world.

9. Duoleng New Material Co., Ltd

Duoleng New Material Co., Ltd is in Zhangzhou City (Taiwanese Investment Zone). And we also got an office in Xiamen city. Our company founded in 1988, the Group has grown with factory coverage area of 200,000 square meters, capital assets of over 12 million USD and annual sales income of over 200 million, which has always been a major taxpayer in Zhangzhou city.

Website: www.tradeeasy.com

Main Products

Duoleng New Material Co., Ltd production capacity is 150,000 tons of steel grit and steel shot, Our primary product – alloy angular steel grit is recognized as high-tech product by Torch High-Tech development Science and Technology department. This steel grit is widely used in granite cutting, shipbuilding, aerospace industry, casting and forging, anticorrosion coating, surface treatment, container industry...

Core Advantages

Duoleng has been a leader in the abrasives market, an ISO9001:2008 certified and SAE standard. The main producer of bearing alloy steel grit in China. It occupies more than 90% domestic market and exports to over 50 countries.

10. JX Abrasive Steel Shot Grit Co., Ltd.

Jinxing Steel Shot Co., Ltd. (JX Abrasives), with ISO 9001, ISO 14001, OHSAS 18001 certificates, established in 1993, is a professional manufacturer of metal abrasives.

Website: www.exportersindia.com

Main Products

Jinxing Steel Shot Co., Ltd. covering Cast Steel Shot, Steel Grit, Cut Wire Shot (Stainless Steel Shot, Zinc Aluminum Shot, Copper Shot), Special Steel Grit, Hook Blast Machine, Tumble Blast Machine, Roller Blast Machine and so on in a variety of materials, configurations, and sizes, which widely used for surface finishing in aerospace, automotive, shipyard, railway, forge and foundry, pipe, steel structure, aluminum and other industries.

Core Advantages

Blade Co., Ltd., which specialize in producing abrasives and technical supporting for industrial and stone cutting applications.

Jinxing Steel Shot Co., Ltd. main products won the famous brand title and get the National Ministry of Science and Technology Spark Program project certificate. In 1998, we are the first abrasive company which has awarded the certification of ISO-9002 international quality system and UKAS certificate together in China. Our total quality understanding and modern manufacturing technology has made JINXING the demanded company in both domestic and overseas markets.

Bearing steel grit manufacturers offer an efficient, cost-effective way to improve the performance of your bearings. By selecting a bearing steel grit manufacturer that meets your specific needs, you can be sure your bearings will run smoother and last longer. In addition to offering quality products, many bearing steel grit manufacturers also offer expert support and customer service.

So if you're looking for a reliable supplier of bearing steel grit, be sure to check out our list of top 10 Best Steel Grit Manufacturers.
