

TOP 10 Steel Cut Wire Shot manufacturers

Detail Introduction :

- 1.Orient Industries
- 2.DAN-STEEL
- 3.Ervin Industries
- 4.W Abrasives Company
- 5.Parekh Steels
- 6.Specially Recommended ZIBO YALONG ABRASIVE Co., Ltd
- 7.Pellets LLC
- 8.GritSablare
- 9.AGSCO
- 10.TOYO SEIKO

A steel cut wire shot is an amusement park ride that uses a large, rotating drum to shoot riders into the air. The ride is typically made of metal and is shaped like a cylinder. Riders are strapped in and then dragged along the inside of the drum before being shot into the air.

Whether you are looking for a new steel shot manufacturer or simply want to stay up-to-date on the latest products, we have compiled a list of the TOP 10 steel shot manufacturers.

1.Orient Industries

Company Profile

Orient Industries with Over 40 Years Of Experience In The Field Of Abrasives, We Assure Quality Products At Best Costs And Superior After Sale Support. We Offer Shot Blasting Solutions To Our Customers Rather Than Just Delivering Products.

Website: orientshots.com

Main Products

Orient Industries produces a range of metallic abrasives to meet every requirement for shot peening operations. The company's high quality products are used in a wide range of applications from sand blasting for foundry & automobile components to shot peening in springs and aeronautics industry. Our product range is as follows:-

Carbon Steel Cut Wire Shot

Low Hardness High Manganese Steel Cut Wire Shot

Stainless Steel Cut Wire Shots.

Zinc Cut Wire Shots

Aluminum Cut Wire Shots

Brass Cut Wire Shots

Copper Cut Wire Shot

Lead Shot

Steel Shots & Grits

Chilled Iron Shots & Grits

Copper Slag

Core Advantages

- 1.40+ Years of Experience in manufacturing of abrasives
- 2.Best Quality Metallic Abrasives
- 3.Competitive pricing
- 4.Customized solutions
- 5.Use of high-quality raw materials
- 6.Superior packaging to protect products from Atmospheric Moisture
- 7.Timely Delivery of products
- 8.Transparency in all dealings
- 9.Flexible and professional terms of business
- 10.Prompt after sales service and support
- 11.Eco friendly approach by creating production efficiencies

2.DAN-STEEL

Company Profile

DAN-STEEL is a sales representative company of business specializing in PPGI materials and Steel Abrasives. The company was established in 2018. The company trades and organizes delivery in multiples of container loads and break-bulk quantities of our products, operating in the primary and secondary sections. It has a strong business formed on its key attributes of dependability and a sound financial base.

Websitedan-steel.com

Main Products

Products, Services, and Technical support for your industry: Construction, profiling, heavy industry, Erection, shipbuilding, agriculture, mechanical engineering

Core Advantages

- certified products with the best quality;
- widespread and cost-effective delivery of goods;
- help to define the customer's business requirements;
- cooperation with a highly motivated team and available support to our clients anytime

3. Ervin Industries

Company Profile

Ervin Industries founded in 1920 developed the patent on Metallic Blasting Materials and has continued to innovate and improve the promotion of metal particles. As a result, we have become the world leader in Blast Cleaning, Shot Peening and Advanced Metal Powders.

Website: www.ervinindustries.com

Main Products

AMASTEEL Shot & Grit, AMACAST Stainless Steel Shot, AMAGRIT Stainless Steel Grit, Ervin Cut-wire Shot, Test Machine, Spot Check Kit, & Frangible Bullets.

Core Advantages

Ervin Industries brings atomizing technology to metal blasting materials for unmatched quality and accuracy. What began in 1920 is now an innovative company that is known worldwide as an industry leader in metal cleaning, shot peening, stone cutting, and other advanced metal powder processes. Over the decades, our eye on technology and a strong commitment to excellence have solidified Ervin Industries as the standard for metal particle performance.

4. W Abrasives Company

Company Profile

Steel Shot W Abrasives Company is a manufacturer of steel shot. The company produces steel shot in various shapes and sizes, including beads, pellets, and rounds. Steel Shot W Abrasives Company also manufactures steel shot sponges, which are used to clean and polish firearms.

Website: www.wabrasives.com

Core Advantages

The steel shot industry is a burgeoning one that has a lot to offer businesses and consumers alike. Here are some of the core advantages of using steel shot over other types of ammunition:

Steel shot is more accurate than other types of ammunition.

Steel shot can be used in a wider range of firearms, including rimfire and centerfire rifles and pistols.

Steel shot doesn't corrode like other ammunition types.

5. Parekh Steels

Company Profile

Parekh Steels has rooted its inspiration in the year 1986 to emerge as a leader in steel abrasives. We are ready to pass on our legacy of 33 years of experience in shot blasting and peening industries, we are ISO 9001:2015 certified manufacturer with an attitude to be the value partner for foundry, forging, automotive, aerospace, medical, wind tower, PEB, Pipe manufacturers and many such engineering and manufacturing sectors.

Website www.steelcutwireshots.com

Core Advantages

Parekh Steels have set up a state of the art manufacturing facility in the year 2009 to manufacture cut wire shots made from carbon steel, stainless steel, copper, aluminum and zinc wires in all shapes and sizes. We offer cut wire shots conforming to SAE J441, VDFI 8001 and AMS 2431 quality standards. We cherish our relationship with more than 500 clients in India and overseas owing to consistent quality, reliability, competitive cost structure and technical support. We have a young and dynamic team continuously working to achieve highest level of customer satisfaction.

6. Specially Recommended ZIBO YALONG ABRASIVE Co., Ltd

Company Profile

ZIBO YALONG ABRASIVE Co., Ltd located in Zibo City, Shandong Province, established in 2007. It is a professional and leading manufacturer and exporter of metallic abrasives. The main products include Steel Shot, Steel Grit, Steel Cut Wire Shot, Stainless Steel Cut Wire Shot etc. The annual output of metallic abrasives is more than 30,000 tons.

Website: www.y-abrasives.com

Main Products

Steel Shot

Steel Grit

Bearing Steel Grit

Copper Cut Wire Shot

Steel Cut Wire Shot

Zinc Cut Wire Shot

Core Advantages

ZIBO YALONG ABRASIVE Co., Ltd has advanced equipment and technology and perfect quality control methods. By using the Centrifugal Atomizing, Double Quenching, and Low-temperature Tempering, the metallic abrasive products are strictly produced and tested according to relative standards, such as SAE J441 and GB/T18838.3-2015.

With good quality, competitive price, thoughtful service, our metallic abrasive products are widely used in fields like automobile, shipbuilding, steel structure and metallurgy, and have been exported to more than 20 countries and regions, including North America, Europe, Middle-East, South-East Asia, etc.

7. Pellets LLC

Company Profile

Pellets LLC, founded in 1948, pioneered the development of cut-wire shot for peening. In 1949, Pellets LLC began supplying cut-wire shot to General Motors and Ford. These auto industry giants used the shot for

peening coil and leaf springs to improve the reliability and useful life of the springs.

Website: pelletsllc.com

Global Customer Base

We are proud to have been the first to provide cut-wire shot abrasive to industry and we continue to be a high-quality, reliable, and low-cost source for cut-wire shot worldwide. Pellets LLC is a leading supplier of cut-wire shot abrasive products to industries including steel, alloy foundries, automotive, aerospace, metalworking, electronics, sporting goods, technology, and others.

Core Advantages

Our cut wire shot is certifiable to the following industry specifications:

AMS 2431/3 (Aerospace Material Specifications)

AMS 2431/4

AMS 2431/8

AMS-S-13165C

SAE J441 (Society of Automotive Engineers)

VDF 8001 (German Specification)

Pellets LLC is eager to provide you the cut wire shot you need! Please contact us with any questions you may have about the cut wire shot abrasives we offer.

8.GritSablare

Company Profile

GritSablare is an online store that specializes in steel cut wire shot manufacture. They carry a wide variety of grits, shapes, and sizes to make your cutting experience easier. Whether you're starting out or looking to upgrade, GritSablare has what you need.

Website: gritsablare.ro

Main Products

Steel Cut Wire Shot manufacturers are the ones who manufacture steel cut wire shot machines. The machine that they make is a wire saw that cuts through metal sheet without any other tools.

The manufacturing process starts with the raw material which is a thick sheet of metal. The machine uses a set of blades to cut through the metal. After the metal has been cut, it is then passed through a set of blades that smooth out the edges. This allows the wire shot to be easily formed and shipped to consumers.

Core Advantages

- Steel cut wire shot manufacturers provide an affordable and efficient way to disperse materials.
- The wire cutters are durable and can handle a lot of material at once.
- The machines are easy to operate, making them a popular choice for smaller businesses.

9.AGSCO

Company Profile

AGSCO is a leading manufacturer and distributor of a variety of industrial chemicals and abrasives, machinery, and blasting equipment. We provide minerals such as silica sand, pool plasters, mil-spec. materials, and aggregates for a variety of different applications. We also supply a wide range of aggregates for coating removal and surface preparation. Our team of specialists are available to assist you in choosing the best material for your application. Contact us today for more information!

Website www.agsco.com

10.TOYO SEIKO

Company Profile

TOYO SEIKO is developing products and services that can meet the needs of our customers with One Shot Peening technology. Our global market share is over 40% due to the global production network, which includes Thailand and the US. In addition, we carry out peening processing (Nadcap accreditation) for various parts. We also have peening processing equipment that supports peening technology that was developed in-house and portable inspection equipment that uses a non-destructive method.

Website toyoseiko.co.jp

Core Advantages

The mission of TOYO SEIKO is to popularize the shot peening process to a wide industrial field. "Make Peening people Peening Fans" is our slogan, and our goal is to be the world's NO.1 "Shot Peening Company" by improving competitiveness of all peening related items.

If you are looking for a reliable and high-quality steel cut wire shot manufacturer, then you should definitely check out the 10 companies on this list. Each of these companies has been in business for years and is known for producing quality products. With so many options to choose from, it's hard to go wrong with any of these manufacturers.
