

# Zinc shot

## Specifications :

Price	Contact Us
Place of Origin	Shandong, China
Payment Terms	T/T, L/C, Western Union, etc.
Delivery Detail	10-25 Working Days.
Keyword	Zinc Shot

## Detail Introduction :

### Zinc cut wire shot - As Cut or Conditioned

Zinc shot is made with the process of drawing, cutting and conditioning etc.. And they are used for deburring and cleaning on various Aluminum alloy, Zinc die castings. Because their specific gravity is close to steel and the hardness is low, the deburring can be performed without wearing the products' surfaces. Otherwise distinguished from Aluminum abrasive, the security is nice for much lower kindling point of the dust. And they are also characterized at obvious whitening on the surfaces of the work pieces.

### Chemical composition of zinc shot

Product	Grade	Chemical composition (%)					Density	Hardness
		Zn	Fe	Al	Cu	Co		
Zinc cut wire shot - G3 Conditioned	0#Zn	99.99%	0.004%	0.003%	0.001%	0.003%	7.1g/cm <sup>3</sup>	45-60HV
Zinc cut wire shot - As Cut	0#Zn	99.99%	0.004%	0.003%	0.001%	0.003%		35-55HV

### Size Available:

0.6, 0.8, 1.0, 1.2, 1.5, 1.7, 2.0, 2.3, 2.5, 3.0 mm

## Our Company:

Zibo Yalong Abrasive Co., Ltd, established in 2007, based in Zibo City, Shandong Province, is a leading manufacturer of metallic abrasives. We produce high quality Steel Shot, Steel Grit, Steel Cut Wire Shot, Stainless Steel Cut Wire Shot etc.

## Packing:
